

Access Valve 单向阀

Standard Access Valve

1/4" SAE flare access fitting with copper tube below the hex, 1/4" O.D. copper tube extension is standard, other sizes are available to provide proper fitting, each cap is machined to have a core remover.

Access Valve For R-410A

Superior access valve special for R-410A applications.

- * Working temperature: -40°C to +80°C
- * Test pressure: 4.5 MPa
- * Burst pressure: ≥ 22 MPa
- * Leakage: ≤ 3.5 g R22/yr.

Stainless Steel Access Valve

Premium access valve special for CO₂ applications.

- * Working temperature: -40°C to +80°C
- * Stainless steel valve body
- * Anti-corrosion, suitable for severe working conditions
